As briefly as I can, here's our story of Clark County's Comp Plan disaster:

Our rural neighbors have been crying after county commissioners stripped away their most cherished private property rights. Their families have endured that pain and loss 24 years now as shown in this 3 minute video clip: http://www.cvtv.org/vid_link/18089?start=2610&stop=2850

Their only hope is to appeal to their citizen representatives for help. Clark County's rural zoning map is so mismatched to the actual rural properties that 6/10 of Residential, 8/10 of Agriculture, and 9/10 of Forest parcels are defined as nonconforming.

Clark County's plan is worse than other counties that respect private property rights. State law is not the problem. It is our friend that requires counties to correct major problems like ours every 10 years.

Yet 3 of the 5 county councilors just adopted the same disastrous plan for another 20 years. How? Why?

Here's what happened: We listened to citizens and diligently worked for nearly 3 years and finally approved a much better plan in November that citizens finally embraced.

Then two more councilors were elected who believed that staff knows best. Within weeks, in a vote of 3 to 2, everything was repealed and reverted back to the 1994 problem plan for the next 20 years. Rural citizens were devastated as the battle for their future waged in ways that I believe were morally wrong.

No one knows the heart. So we cannot claim evil motives. But we all must fight for honesty and forthrightness. Because all county meetings are recorded and all communications are open public records, the truth is self-evident and provides ample evidence to reveal who was telling the truth and who was not.

I was a witness of what I allege were 4 major misrepresentations of the truth in 4 recorded meetings that led to the current harm inflicted upon our rural neighbors. As a last resort, I reported those alleged violations of trust and am continuing to work to correct the injustice.

Clark County's Prosecuting Attorney's office, the largest law firm in our county, is named in the alleged wrongdoing, and hired their own investigator who cannot be expected to exonerate their accuser and incriminate themselves.

This is part 1. Part 2 will follow.

Jim Johnson So, our Rights get taken away in the complexities of staff, who is only trying to comply with "what we want". The Devil, it appears, is always in the details. And when the inevitable Dim Bulb gets hired to lead them, the recourse is to charge "harassment". They screwed up, and yes, somebody should get fired. Oh, wait...that is also a complex matter...This is a cautionary tale for why Bureaucracies eventually kill their hosts. Every time.

Jim Johnson I stand with this Man. What we did is shameful, but now insisting it continues is downright despicable. This can not stand.

Gary Hollmer What is sad is the latest by Looney Lou and the comments from those who refuse to use rational thinking. One Liberal frequent commenter insists that Alt. 4 is illegal under the GMA without having any reference to back his comments.

David Madore Don, the grieving citizen is Stan Green begging for Marc Boldt, Jeanne Stewart, and Julie Olson who stripped rural citizens of their private property rights and reminding them of their campaign promises to protect those rights.

Julie Olson campaigned for those rights when running but killed Alternative 4 as soon as elected. Click to enlarge this snapshot of Julie Olson's campaign website showing her promise to citizens: http://julieolsonforclark.com/Julie_Olson/Issues.html

See that last line? "Protecting private property rights"

Honesty in politics is the basis for trust. They label those trying to correct this injustice "divisive" because we will not unite against the people.

Bruce Samuelson It's interesting to note that those who rant the loudest for affordable housing are shooting themselves in their wallet. Since the property still can't be split, fewer homes can be built unless they plan on eminent domain

Margaret Tweet Planners Taking away our freedoms, one property at a time. Grateful for David Madore defending property rights, including the right to earn a living from the land.
